The Swiss Cybersecurity Start-Up Map
Exploring the future of Swiss cybersecurity innovation

Swiss Cybersecurity Start-Up Map

The ongoing expansion of Swiss cybersecurity start-ups is fostering a hub of innovation right here in Switzerland. Our objective is to provide Swiss start-ups with the recognition they deserve. Presenting all of them in a single glance, the Swiss Cybersecurity Start-Up Map highlights their presence.

We aim to position Switzerland as a distinguished and influential centre for cybersecurity solutions worldwide, founded on the Swiss bedrock of trust, political stability/neutrality, and innovation strength by

- **Supporting the evolution of the Swiss cybersecurity ecosystem.**
- **Increasing the visibility of new and innovative companies.**
- **Encouraging new collaborations amongst the start-ups.**
- **Connecting start-ups and other potential partners.**

New start-ups on the map:
